

Conyngham Dentist Attends the 150th American Dental Association 2009 Annual Session in Hawaii

Dr. Shandrick (at microscope) utilizes the latest dental magnification equipment here, with endodontics course director, Dr. John West during the ADA annual session in Honolulu

Robert Shandrick, DMD, FAGD, of Sugarloaf, PA, attended the 150th Annual Convention of the American Dental Association (ADA) this October, in Honolulu, Hawaii. As a member of the ADA since 1981, Dr. Shandrick and over 14,000 other dentists and dental professionals from the US and around the world, attended the anniversary session, to examine and test Dentistry's newest products and equipment, and study some of the latest techniques that are becoming the future direction of dentistry.

The highlight of the convention for Dr. Shandrick was spending a day with Dr. John West, founder and director of the Center for Endodontics, in Tacoma Washington. Endodontics is a therapy in dentistry which treats the nerves of teeth when hurting or infected, and allows the tooth to be kept, rather than removed. An author, lecturer and industry leader in endodontics, Dr. West presented the most effective methods and instruments in the field, including training Dr. Shandrick and the other attending dentists, in utilization of state-of-the-art magnification for dental treatment.

Dr. Shandrick maintains a practice in general and cosmetic dentistry at Shandrick Dental Care Studios, Rt 93, Conyngham PA. You can obtain more information by calling (570)788-1870, or visiting the website www.shandrickdentalcare.com. Robert Shandrick is married to Debi Shandrick, owner and lead therapist at Robert Stevens Face and Body, The Skin Care Center, also at Rt 93, Conyngham, PA.
